Re: Office location

On behalf of the Office of Environmental Adjudication, I wanted to provide you with some information about the Office of Environmental Adjudication's ("OEA") location.

As you may be aware, OEA's offices are in an office suite, with office space and some financial staff shared with two other agencies, including the Indiana Office of Education Employee Relations ("IEERB"). Due to its staffing needs, IEERB will need all of the office space.

At this time, the State staff tasked with office space and support needs have met with me to determine OEA's needs, and are reviewing available office space options available to OEA. As soon as an option is approved, I will inform you of our new state office location. Nearby relocation is expected in the early fall. The specific timing, whether OEA is part of another office cooperative, and the exact amenities, are all dependant upon office space availability and budget. Therefore, the relocation will have no effect upon OEA's operations and service to you, and hearing room schedules have been confirmed.

OEA congratulates IEERB on its growth, and I look forward to providing you with detailed information once it is finalized. Although our new office space should be similar to the other office spaces hosting OEA, if you have factors you would like me to consider, please submit those to me at your earliest opportunity. If you submit your comments in writing, I will be able to keep them organized by topic area (e.g., hearing area, phone/fax availability, etc.).
